Horse Show At Chatham on July 15th

The Virginia Walking Horse Association has selected the beautiful Bright Leaf Celebration Showgrounds at Chatham as the site for its first annual all-Walking Horse Show. The Association's purpose in sponsoring the show, which is to be held July 15, is to promote the Tennessee Walking Horse as an animal for show and pleasure.

A special feature of the show will be an exhibition by the Radford College Redcoats, a popular equestrain drill team under the direction of Mr. Dick Neff, which has appeared at the Bright Leaf Celebration for the past several years.

Show Chairman Lawrence Beard urges all spectators and exhibitors to come early and enjoy the fine cooking of the Woodlawn Academy's Country Kitchen, which will serve chicken and ham plate suppers beginning at 4 p.m. as well as other summe r "home-cooked" specialties throughout the day and night. Members of the Academy will also be selling chances on a color television set for which the drawing will be held during the show.

The Virginia Walking Horse Association hopes that not only will its first show be a success,- but also that many spectators and exhibitors who have not been to Chatham before will return on September 29 and 30 and October 1 for the Bright Leaf Celebration Horse Show.

The Appomattox County Jaycees were the sponsors for the swimming lessons, working in cooperation with the YMCA.

IRS Law May Aid Flood Victims

RICHMOND — An amendment to the Federal tax law signed Saturday by the President allows taxpayers who suffered disaster losses before June 30 of this year to claim those losses on last year's tax returns James P. Boyle, District Director of Internal Revenue Service for Virginia, said recently.

The change in law was enacted to give relief to victims of the floods that recently ravaged the Midwest and Eastern portions of the country. Under the old law, a disaster had to occur before the end of the income tax filing period, usually April 15, in order for taxpayers to claim the losses on the previous year's returns. Simultaneously with the announcement of the change of law, the Treasury and the Internal Revenue Service said that the July 15 deadline for claiming disaster losses has been extended. Regulations giving specific details and dates will follow in the near future, Mr. Boyle said.

The change means that taxpayers who suffered losses in sections of the country declared disaster areas by the President in the first six months of 1972 may file amended returns for 1971. For many taxpayers that would mean a quick tax return, Boyle said. Form 1040X is used by individuals and Form 1120 X by corporations to file amended returns.

Publication 547, Tax Information on Disasters, Casualty Losses and Thefts, and information regarding the filing of amended returns may be obtained at Internal Revenue Service offices and the one-stop disaster assistance centers recently set up in the State.

What Strange Beast?

The front half of a young groundhog showed up at the home of Dr. J. A. Mathews last week. The strange looking animal was killed by one of the family dogs.

Note the extremely elongated lower two front teeth on the animal - a condition that is quite rare. Had the animal survived and the two teeth, which were nearly 2" long, continued to grow, it is doubtful the animal would have been able to feed normally.

Payments Made To Farm Program Participants

Approximately 955,000 cotton, feed grain and wheat producers who certified compliance in the 1972 set-aside program are being mailed a total of $1.1 billion in early program payments authorized by the Agricultural Act of 1970, it was announced today by the U.S. Department of Agriculture. The checks were scheduled to arrive in many producers' hands July 1. Most producers are expected to receive their early payment by the end of July.

Payments under the set-aside programs are made to farmers who agree to set aside part of their land from production in order to meet a national objective of balancing supply and demand in certain commodities. These payments help to offset the loss of returns from cropland that otherwise would be used for income-yielding production, and on which the farmer is obliged to continue to pay taxes and apply needed conservation steps, USDA explained. Payments to producers are limited to $55,000 per person for each of the three crops under the 1970 Act.

Total payments for grains and cotton this year are expected to be about $3.7 billion. Feed grain producers ultimately will get about $1.9 billion, cotton producers about $835 million, and wheat producers about $1 billion.

Preliminary payments to wheat producers under the Agriculture Act of 1970 are limited to 75 percent of final payments. Final wheat certificate payments will be made after December 1. Feed grain and cotton farmers may or may not get a final payment, depending on market conditions.

4.6%
does YOUR bank pay DAILY interest

If not, you may be losing money. Because some banks only compound interest on Passbook Savings quarterly or semi-annually. Even worse, if you withdraw funds before the interest date, you don't receive one penny's interest on the money you withdraw. But at Fidelity National Bank, we compound daily ... from the day of deposit to the day of withdrawal. And daily interest gives you an effective annual yield of 4.6% instead of 4.5%. Check out your bank. Why earn less when you could save with Fidelity?
